

Virtually Wirksworth

... is an orienteering test using the Urban Map of Wirksworth and Google Maps/Street View.

The object of the exercise is to work around the course and using your combined orienteering skills and ability to delve into the Street View technology in order to identify the features of each of the control sites. Control descriptions take the form of a 'clue sheet'.

If you don't want to cheat and wish to be competitive then prepare by printing off the Urban map of Wirksworth (no looking yet) and printing off the control description/clue sheet. Open up Google Maps on a device of your choice and navigate (pun intended) to the map of Wirksworth. Get your stopwatch/timing device ready.

Place the Urban Map face down on a table (or something) and then say 'Beep, Beep, Beep, **Beep**'. On the last '**Beep**' start your timer, pick up the map, find the start triangle and you are away.

Post your times on the DVO Facebook page where you will find the solutions.

Have fun!

1	Last 3 digits of DLS phone	
2	Last 2 digits of phone number	
3	Lamppost	
4	What time is it?	
5	Lamppost	
6	Steps up to the door of Number 41	
7	Number of smiley faces on the bin	
8	Parking fine	
9	Our place ...	
10	Lamppost	
11	Make of car under trees	
12	Height of bridge	
13	Last 2 digits on school sign	
14	Number of road to Whatstandwell	
15	What season?	
16	Which political party?	
17	Colour of the wheelie bin	
18	Lamppost
